

Climate Change Advisory Committee Today's Meeting Expectations

July 11, 2005

***Susan J. Brown
California Energy Commission***

Agenda for Today's Meeting

- **Cal EPA has been asked to present the Governor's Leadership Initiative**
- **Presentation by CCAP on preliminary analytical results and interim findings.**
- **Subcommittee reports and advisory statements**
- **Advisory Committee feedback**
- **Public comments**

Review Subcommittee Progress

- **Subcommittees have been meeting via conference calls on analysis of power sector, transportation, and multi-sector strategies.**
- **A combined committee on the agriculture, forestry and industrial sectors was formed.**
- **Feedback on power sector modeling assumptions for a reference case and scenarios is ongoing.**
- **Review of CCAP staff work products in advance of each conference call will continue through July and August.**

Process for Finalizing Subcommittee Reports

- Requests to the subcommittee co-chairs
- Advisory statements to the Energy Commission not yet final recommendations but work in progress.
- Ratification by the full Advisory Committee, where consensus can be reached.
- Further work in the subcommittees to arrive at areas of agreement and to formulate minority viewpoints.

Subcommittee Feedback Today

- Cross-Cutting Issues: Josh Margoles and Peggy Duxbury, Co-Chairs
- Transportation: Jason Mark and Michael Meacham, Co-Chairs
- Power Sector: Jan Schori and Ralph Cavanagh, Co-Chairs
- Industrial and Agriculture: Robert Parkhurst and Cynthia Corey, Co-Chairs

Schedule and Next Steps

- CCAP analysis of selected options for power, transportation, agricultural and forestry and industrial: Ongoing.
- Subcommittee review and feedback on strategies being evaluated: Conference calls
- Feedback from the Advisory Committee based on four subcommittee statements is requested today.
- Members may attend the July 12th Energy Commission workshop on climate change for the *2005 Integration Energy Policy Report*.
- Draft Energy Report release in early September presents additional opportunity for input.
